

Juan Angustia

Visual designer with more than 10 years of experience, specialized in UI/UX and prototype.

I believe in the simplicity of the things: good product, UX, visual, and interaction not only solves problems, but also creates emotional experience for people by bringing emotion in each visual interaction.

Experience

Visual designer

at Google
Mar 2019 - present

Create and implement design solutions for Google Duo, high-quality video calls for phones, tablets, computers, and Smart Displays. As a UXD I work closely with UXE, PMs defining strategies for future product features.

Visual designer

at Comcast
Aug 2015 - Feb 2019

Work in partnership with the Associate Creative Director of X1 platform to identify opportunities for improvement in functionality, enhancement of the user interface, and evolution of the overall product experience.

Sr, Digital Designer

at The Axis Agency
Aug 2015 - Feb 2019

Creating interactive design concepts through active participation in brainstorming and other idea-generating sessions. Also actively participates in team meetings to discuss assignment parameters.

Special skills

Prototyping, UI/UX, Video Editing, Photography, Interaction Design, Animation & Dance.
